## Training for Reform

### Economy Profile Burkina Faso

Comparing Business Regulation  
for Domestic Firms in **190** Economies

## ***Economy Profile of Burkina Faso***

*Doing Business 2019 Indicators  
(in order of appearance in the document)*

<b>Starting a business</b>	Procedures, time, cost and paid-in minimum capital to start a limited liability company
<b>Dealing with construction permits</b>	Procedures, time and cost to complete all formalities to build a warehouse and the quality control and safety mechanisms in the construction permitting system
<b>Getting electricity</b>	Procedures, time and cost to get connected to the electrical grid, and the reliability of the electricity supply and the transparency of tariffs
<b>Registering property</b>	Procedures, time and cost to transfer a property and the quality of the land administration system
<b>Getting credit</b>	Movable collateral laws and credit information systems
<b>Protecting minority investors</b>	Minority shareholders' rights in related-party transactions and in corporate governance
<b>Paying taxes</b>	Payments, time, total tax and contribution rate for a firm to comply with all tax regulations as well as post-filing processes
<b>Trading across borders</b>	Time and cost to export the product of comparative advantage and import auto parts
<b>Enforcing contracts</b>	Time and cost to resolve a commercial dispute and the quality of judicial processes
<b>Resolving insolvency</b>	Time, cost, outcome and recovery rate for a commercial insolvency and the strength of the legal framework for insolvency
<b>Labor market regulation</b>	Flexibility in employment regulation and aspects of job quality

## About Doing Business

The *Doing Business* project provides objective measures of business regulations and their enforcement across 190 economies and selected cities at the subnational and regional level.

The *Doing Business* project, launched in 2002, looks at domestic small and medium-size companies and measures the regulations applying to them through their life cycle.

*Doing Business* captures several important dimensions of the regulatory environment as it applies to local firms. It provides quantitative indicators on regulation for starting a business, dealing with construction permits, getting electricity, registering property, getting credit, protecting minority investors, paying taxes, trading across borders, enforcing contracts and resolving insolvency. *Doing Business* also measures features of labor market regulation. Although *Doing Business* does not present rankings of economies on the labor market regulation indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business, it does present the data for these indicators.

By gathering and analyzing comprehensive quantitative data to compare business regulation environments across economies and over time, *Doing Business* encourages economies to compete towards more efficient regulation; offers measurable benchmarks for reform; and serves as a resource for academics, journalists, private sector researchers and others interested in the business climate of each economy.

In addition, *Doing Business* offers detailed [subnational reports](#), which exhaustively cover business regulation and reform in different cities and regions within a nation. These reports provide data on the ease of doing business, rank each location, and recommend reforms to improve performance in each of the indicator areas. Selected cities can compare their business regulations with other cities in the economy or region and with the 190 economies that *Doing Business* has ranked.

The first *Doing Business* report, published in 2003, covered 5 indicator sets and 133 economies. This year's report covers 11 indicator sets and 190 economies. Most indicator sets refer to a case scenario in the largest business city of each economy, except for 11 economies that have a population of more than 100 million as of 2013 (Bangladesh, Brazil, China, India, Indonesia, Japan, Mexico, Nigeria, Pakistan, the Russian Federation and the United States) where *Doing Business* also collected data for the second largest business city. The data for these 11 economies are a population-weighted average for the 2 largest business cities. The project has benefited from feedback from governments, academics, practitioners and reviewers. The initial goal remains: to provide an objective basis for understanding and improving the regulatory environment for business around the world.

Ease of Doing Business in  
Burkina Faso

Region	Sub-Saharan Africa
Income Category	Low income
Population	19,193,382
City Covered	Ouagadougou

DB 2019 Ease of Doing Business Score

Note: The ease of doing business score captures the gap of each economy from the best regulatory performance observed on each of the indicators across all economies in the *Doing Business* sample since 2005. An economy's ease of doing business score is reflected on a scale from 0 to 100, where 0 represents the lowest and 100 represents the best performance. The ease of doing business ranking ranges from 1 to 190.

Rankings on Doing Business topics - Burkina Faso

Ease of Doing Business Score on Doing Business topics - Burkina Faso

## Starting a Business

This topic measures the number of procedures, time, cost and paid-in minimum capital requirement for a small- to medium-sized limited liability company to start up and formally operate in each economy's largest business city.

To make the data comparable across 190 economies, *Doing Business* uses a standardized business that is 100% domestically owned, has start-up capital equivalent to 10 times the income per capita, engages in general industrial or commercial activities and employs between 10 and 50 people one month after the commencement of operations, all of whom are domestic nationals. Starting a Business considers two types of local limited liability companies that are identical in all aspects, except that one company is owned by 5 married women and the other by 5 married men. The ranking of economies on the ease of starting a business is determined by sorting their scores for starting a business. These scores are the simple average of the scores for each of the component indicators.

The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p><b>Procedures to legally start and formally operate a company (number)</b></p> <ul style="list-style-type: none"> <li>• Preregistration (for example, name verification or reservation, notarization)</li> <li>• Registration in the economy's largest business city</li> <li>• Postregistration (for example, social security registration, company seal)</li> <li>• Obtaining approval from spouse to start a business or to leave the home to register the company</li> <li>• Obtaining any gender specific document for company registration and operation or national identification card</li> </ul>	<p>To make the data comparable across economies, several assumptions about the business and the procedures are used. It is assumed that any required information is readily available and that the entrepreneur will pay no bribes.</p>
<p><b>Time required to complete each procedure (calendar days)</b></p> <ul style="list-style-type: none"> <li>• Does not include time spent gathering information</li> <li>• Each procedure starts on a separate day (2 procedures cannot start on the same day)</li> <li>• Procedures fully completed online are recorded as ½ day</li> <li>• Procedure is considered completed once final document is received</li> <li>• No prior contact with officials</li> </ul>	<p><b>The business:</b></p> <ul style="list-style-type: none"> <li>- Is a limited liability company (or its legal equivalent). If there is more than one type of limited liability company in the economy, the most common among domestic firms is chosen. Information on the most common form is obtained from incorporation lawyers or the statistical office.</li> <li>- Operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.</li> <li>- The entire office space is approximately 929 square meters (10,000 square feet).</li> <li>- Is 100% domestically owned and has five owners, none of whom is a legal entity; has a start-up capital of 10 times income per capita and has a turnover of at least 100 times income per capita.</li> <li>- Performs general industrial or commercial activities, such as the production or sale of goods or services to the public. The business does not perform foreign trade activities and does not handle products subject to a special tax regime, for example, liquor or tobacco. It does not use heavily polluting production processes.</li> <li>- Leases the commercial plant or offices and is not a proprietor of real estate and the amount of the annual lease for the office space is equivalent to the income per capita.</li> <li>- Does not qualify for investment incentives or any special benefits.</li> <li>- Has at least 10 and up to 50 employees one month after the commencement of operations, all of whom are domestic nationals.</li> <li>- Has a company deed that is 10 pages long.</li> </ul>
<p><b>Cost required to complete each procedure (% of income per capita)</b></p> <ul style="list-style-type: none"> <li>• Official costs only, no bribes</li> <li>• No professional fees unless services required by law or commonly used in practice</li> </ul>	<p><b>The owners:</b></p> <ul style="list-style-type: none"> <li>- Have reached the legal age of majority. If there is no legal age of majority, they are assumed to be 30 years old.</li> <li>- Are sane, competent, in good health and have no criminal record.</li> <li>- Are married and the marriage is monogamous and registered with the authorities.</li> <li>- Where the answer differs according to the legal system applicable to the woman or man in question (as may be the case in economies where there is legal plurality), the answer used will be the one that applies to the majority of the population.</li> </ul>
<p><b>Paid-in minimum capital (% of income per capita)</b></p> <ul style="list-style-type: none"> <li>• Funds deposited in a bank or with third party before registration or up to 3 months after incorporation</li> </ul>

\*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures reflected here, see the summary below.

## Details - Starting a Business in Burkina Faso - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Deposit subscribed capital in a bank</b>  <i>Agency</i> : Bank or any other credit or micro-credit establishment            Business founders must deposit their startup capital at a bank.</p>	1 day on average	no charge
2	<p><b>Have a notary public notarize the declaration of capital subscription and deposit the two acts with the notary office</b>  <i>Agency</i> : Notary            Proof of capital deposit is required.</p> <p>Since 2014, the use of notaries is no longer required (Decree N 2014-462/PRES/PM/MJ/MICA). However, most entrepreneurs still use their services.</p>	3 days	3 % of declared capital
3	<p><b>Register at Centre des Formalités des Entreprises (CEFORE) for company registration, tax number (IFU), labor, and social security</b>  <i>Agency</i> : CEFORE            By Decree No. 2005-332/PRES/PM/MCPEA/MFB/MTEJ of June 21, 2005, the Center for Business Formalities (CEFORE) was created and became operational in Ouagadougou. A single application form must be submitted to complete company registration with the Trade Register and Personal Credit (RCCM), to obtain the fiscal identification (or identifiant financier unique, IFU, at the Direction Générale des Impôts) and the professional license (carte professionnelle de commerçant, at the Ministry of Commerce). After the form is submitted, CEFORE organizes the registration with the court and other authorities. Companies are assigned a unique company identification number for company registration, fiscal identification, and social security affiliation.</p> <p>The official time for the completion of the registration process in this procedure is 7 working days. Because CEFORE forwards the documents to the respective agencies, however, in practice the delay is longer.</p> <p>On May 23, 2007, the Minister of Labor and Social Security, the Minister of Commerce, and the Minister of Employment signed a decree that the required declarations must be filed with CEFORE. CEFORE then transfers the relevant information to Caisse Nationale de Sécurité Sociale (CNSS), which has the mandate to disseminate that information to the National Agency of Employment Promotion (ANPE) and the Labor Inspectorate.</p> <p>Registration fees are XOF 47,500 as follows: XOF 12,500 (RCCM) + XOF 7,500 (IFU) + XOF 5,000 (CNSS) + XOF 7,500 (CEFORE) + XOF 5,000 (Court registration) + XOF 10,000 (fee for publication).</p> <p>The sworn declaration (declaration sur l'honneur), instead of a copy of the criminal records of the manager is provided with the registration application. The entrepreneur will need to send a copy of her/his criminal record within 2 months.</p> <p>On July 2015 the CEFORE has launched an e-registration process for business registration called "Système Intègre des Guichets Uniques, SIGU" (<a href="http://www.sigu.gov.bf">www.sigu.gov.bf</a>). Entrepreneurs have the possibility of registering via the online portal, but in practice they are still registering over the counter at the CEFORE office.</p>	9 days	see procedure details

⇒ Takes place simultaneously with previous procedure.

## Dealing with Construction Permits

This topic tracks the procedures, time and cost to build a warehouse—including obtaining necessary the licenses and permits, submitting all required notifications, requesting and receiving all necessary inspections and obtaining utility connections. In addition, the Dealing with Construction Permits indicator measures the building quality control index, evaluating the quality of building regulations, the strength of quality control and safety mechanisms, liability and insurance regimes, and professional certification requirements. The most recent round of data collection was completed in May 2018. [See the methodology for more information](#)

What the indicators measure	Case study assumptions
<p><b>Procedures to legally build a warehouse (number)</b></p> <ul style="list-style-type: none"> <li>• Submitting all relevant documents and obtaining all necessary clearances, licenses, permits and certificates</li> <li>• Submitting all required notifications and receiving all necessary inspections</li> <li>• Obtaining utility connections for water and sewerage</li> <li>• Registering and selling the warehouse after its completion</li> </ul>	<p>To make the data comparable across economies, several assumptions about the construction company, the warehouse project and the utility connections are used.</p>
<p><b>Time required to complete each procedure (calendar days)</b></p> <ul style="list-style-type: none"> <li>• Does not include time spent gathering information</li> <li>• Each procedure starts on a separate day—though procedures that can be fully completed online are an exception to this rule</li> <li>• Procedure is considered completed once final document is received</li> <li>• No prior contact with officials</li> </ul>	<p><b>The construction company (BuildCo):</b></p> <ul style="list-style-type: none"> <li>- Is a limited liability company (or its legal equivalent) and operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.</li> <li>- Is 100% domestically and privately owned; has five owners, none of whom is a legal entity. Has a licensed architect and a licensed engineer, both registered with the local association of architects or engineers. BuildCo is not assumed to have any other employees who are technical or licensed experts, such as geological or topographical experts.</li> <li>- Owns the land on which the warehouse will be built and will sell the warehouse upon its completion.</li> </ul>
<p><b>Cost required to complete each procedure (% of income per capita)</b></p> <ul style="list-style-type: none"> <li>• Official costs only, no bribes</li> </ul>	<p><b>The warehouse:</b></p> <ul style="list-style-type: none"> <li>- Will be used for general storage activities, such as storage of books or stationery.</li> <li>- Will have two stories, both above ground, with a total constructed area of approximately 1,300.6 square meters (14,000 square feet). Each floor will be 3 meters (9 feet, 10 inches) high and will be located on a land plot of approximately 929 square meters (10,000 square feet) that is 100% owned by BuildCo, and the warehouse is valued at 50 times income per capita.</li> <li>- Will have complete architectural and technical plans prepared by a licensed architect. If preparation of the plans requires such steps as obtaining further documentation or getting prior approvals from external agencies, these are counted as procedures.</li> <li>- Will take 30 weeks to construct (excluding all delays due to administrative and regulatory requirements).</li> </ul>
<p><b>Building quality control index (0-15)</b></p> <ul style="list-style-type: none"> <li>• Quality of building regulations (0-2)</li> <li>• Quality control before construction (0-1)</li> <li>• Quality control during construction (0-3)</li> <li>• Quality control after construction (0-3)</li> <li>• Liability and insurance regimes (0-2)</li> <li>• Professional certifications (0-4)</li> </ul>	<p><b>The water and sewerage connections:</b></p> <ul style="list-style-type: none"> <li>- Will be 150 meters (492 feet) from the existing water source and sewer tap. If there is no water delivery infrastructure in the economy, a borehole will be dug. If there is no sewerage infrastructure, a septic tank in the smallest size available will be installed or built.</li> <li>- Will have an average water use of 662 liters (175 gallons) a day and an average wastewater flow of 568 liters (150 gallons) a day. Will have a peak water use of 1,325 liters (350 gallons) a day and a peak wastewater flow of 1,136 liters (300 gallons) a day.</li> <li>- Will have a constant level of water demand and wastewater flow throughout the year; will be 1 inch in diameter for the water connection and 4 inches in diameter for the sewerage connection.</li> </ul>

Figure - Dealing with Construction Permits in Burkina Faso and comparator economies - Measure of Quality

## Details - Dealing with Construction Permits in Burkina Faso - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Legalize copy of deed (proof of right to ownership)</b>  <i>Agency</i> : Notary            One of the requirements to apply for a construction permit at the CEFAC is to submit at least two certified copies of the title of use or ownership of the land. This legalization can be done at any notary.</p>	1 day	XOF 200
2	<p><b>Obtain soil survey from National Laboratory of Building and Public Works</b>  <i>Agency</i> : Laboratoire National des Batiments et Travaux Publics Burkina- LNBTP            The soil survey is carried out by the National Laboratory of Construction and Public Works (Laboratoire National des Batiments et Travaux Publics Burkina). The purpose of this study is to analyze and inform the construction company of the parameters for the foundations (what type of foundations are required, how deep in the soil should they dig, what is the quality of the soil, etc.).</p> <p>The fees depend on the size of the building, and according to the arrêté conjoint N 2008-066/MHU/MATD/MEF/MID and the circulaire N 10-01195/MID/SG/LNBTP, the cost of the soil survey from National Laboratory of Building and Public Works is FCFA 300,000.00.</p>	30 days	XOF 300,000
⇒ 3	<p><b>Obtain fire safety study from a licensed fireman or competent private agency</b>  <i>Agency</i> : Licensed Fireman            As of January 2011 a fee schedule has been established in Ouagadougou for the cost of the fire safety study. To obtain this study, a company must make a request with a licensed fireman ('personne agréée' - pompier) or at the agency SCEPSI -- 'Societe Commerciale d'Etudes, de Prevention et de Sécurité Incendie'.</p> <p>The fee schedule has reduced the fire safety study fees for Category 3 buildings (e.g., warehouse) from FCFA 500,000.00 to FCFA 165,000.00. The document takes about 1 -- 2 weeks to be issued.</p>	10 days	XOF 150,000
⇒ 4	<p><b>Obtain a land survey from a private consultant</b>  <i>Agency</i> : Private company            A land plot survey (plan de bornage) is obtained from a private surveyor. This is necessary since there is Master plan for the city of Ouagadougou, therefore in order for the builder to ensure that the boundary of the land is correct, a private surveyor will do a land survey. This is not a requirement to obtain a building permit, but it is done in practice by the builder.</p>	7 days	XOF 116,000

5	<p><b>Obtain building permit at CEFAC one-stop shop and pay fees</b>  <i>Agency</i> : Centre de Facilitation des Actes de Construire (CEFAC)  Documents obtained from the first 3 procedures (soil survey, legalized copy of ID and land title, and fire safety study) along with the architecture plans are brought to CEFAC. The files will be reviewed by one of CEFAC's two experts on construction permits. If the agent finds that the application package is incomplete, the agent will inform BuildCo before sending the application to other agencies and will ask BuildCo to provide the missing materials.</p> <p>The following documents must accompany an application to construct a warehouse (category C):</p> <ul style="list-style-type: none"> <li>• An application form, with a FCFA 200 stamp fee</li> <li>• A copy from the RCCM of the company's status</li> <li>• A legalized copy of the land title</li> <li>• A demarcation plan</li> <li>• An architectural study report established by a recognized architect by the Order of Architects</li> <li>• An engineering report detailing the construction requirements</li> </ul> <p>When the application package is complete, the file is ready to be submitted to the CEFAC Commission. Four agencies are represented in this commission: the fire department, the tax office, the municipality, and the Urban Planning Ministry (Ministere de l'Habitat et l'Urbanisme). The committee meets every fifteen days. By law, they have to get back to the applicant within 18 days so a decision is delivered every 20 -- 30 days. The Commission can reject an application for many reasons (including wrong zoning) but BuildCo can only appeal once. An application is rarely rejected. Even in cases when the application requires further information, the Commission issues a conditional permit, allowing the applicant to work on the remaining elements. The permit issued by the Commission is valid for 5 years and can be renewed once.</p>	20 days	XOF 158,788
6	<p><b>Receive excavation inspection</b>  <i>Agency</i> : Laboratoire National des Batiments et Travaux Publics Burkina- LNBTP  The laboratory subcontracts with a private laboratory, which conducts weekly inspections. It is assumed that the project will be built in 30 weeks.</p>	15 days	XOF 9,471
7	<p><b>Receive foundation inspection</b>  <i>Agency</i> : Laboratoire National des Batiments et Travaux Publics Burkina- LNBTP  The laboratory subcontracts with a private laboratory, which conducts weekly inspections. It is assumed that the project will be built in 30 weeks.</p>	1 day	no charge
8	<p><b>Receive concrete work inspection</b>  <i>Agency</i> : Laboratoire National des Batiments et Travaux Publics Burkina- LNBTP  The laboratory subcontracts with a private laboratory, which conducts weekly inspections. It is assumed that the project will be built in 30 weeks.</p>	1 day	no charge
9	<p><b>Notify the CEFAC of the end of construction and request a certificate of occupancy</b>  <i>Agency</i> : CEFAC  According to Art. 5 - 7 of le Decree N 2008-004/PRES/PM/MHU/MATD, dated January 10, 2008, it is mandatory for the owner or builder to inform the authority of the end of construction and request a certificate of occupancy.</p>	1 day	no charge
10	<p><b>Receive Final inspection from CEFAC</b>  <i>Agency</i> : CEFAC  Once the builder or owner has requested an occupancy permit, the technical department of CEFAC will visit the construction to verify that it was built according to approved plans. This is based on article 8-9 of decree N 2008-004/PRES/PM/MHU/MATD, dated January 10, 2008.</p>	1 day	no charge
11	<p><b>Obtain certificate of conformity</b>  <i>Agency</i> : Centre de Facilitation des Actes de Construire (CEFAC)  The issuance of the certificate of conformity is governed by Article 207 of Law No. 017/2006/AN of 18 May 2006 on the Code of Urbanism and Construction.</p> <p>The certificate of conformity, an administrative document attesting that the building was constructed in accordance with the approved building permit, is issued either by the Mayor or by the Minister in charge of the construction within one month from the date of the application.</p> <p>An application for a certificate of conformity is submitted by the owner or his agent within one month from the end of construction. The request must be accompanied by the statement of completion of work duly signed by the contractor and the client.</p>	20 days	XOF 41,000
12	<p><b>Request water connection</b>  <i>Agency</i> : Office National de l'Eau et de l'Assainissement (ONEA)</p>	1 day	no charge

13	<b>Obtain inspection for water connection cost estimate</b> <i>Agency</i> : Office National de l'Eau et de l'Assainissement (ONEA) When requesting a connection to water, the distance between the concession and the water mains cannot exceed 50 m. Beyond 50 m and after examining your file, an extension you can be offered if there are at least 5 applications, that would justify such grid extension.	1 day	no charge
14	<b>Pay fees and obtain water connection</b> <i>Agency</i> : Office National de l'Eau et de l'Assainissement (ONEA) For a water connection with the following specifications: 15 millimeter for the water meter, 10 meters from the water mains and based on the daily flow, the size of the water pipe would be 1 inch. The estimated cost is FCFA 120,000.00.	30 days	XOF 120,000

→ Takes place simultaneously with previous procedure.

## Details - Dealing with Construction Permits in Burkina Faso - Measure of Quality

	Answer	Score
<b>Building quality control index (0-15)</b>		<b>12.0</b>
<b>Quality of building regulations index (0-2)</b>		<b>1.0</b>
How accessible are building laws and regulations in your economy? (0-1)	Available online; Free of charge; In official gazette.	1.0
Which requirements for obtaining a building permit are clearly specified in the building regulations or on any accessible website, brochure or pamphlet? (0-1)	List of required documents; Fees to be paid.	0.0
<b>Quality control before construction index (0-1)</b>		<b>1.0</b>
Which third-party entities are required by law to verify that the building plans are in compliance with existing building regulations? (0-1)	Licensed architect.	1.0
<b>Quality control during construction index (0-3)</b>		<b>2.0</b>
What types of inspections (if any) are required by law to be carried out during construction? (0-2)	Inspections by external engineer or firm; Inspections at various phases.	1.0
Do legally mandated inspections occur in practice during construction? (0-1)	Mandatory inspections are always done in practice.	1.0
<b>Quality control after construction index (0-3)</b>		<b>3.0</b>
Is there a final inspection required by law to verify that the building was built in accordance with the approved plans and regulations? (0-2)	Yes, in-house engineer submits report for final inspection.	2.0
Do legally mandated final inspections occur in practice? (0-1)	Final inspection always occurs in practice.	1.0
<b>Liability and insurance regimes index (0-2)</b>		<b>2.0</b>
Which parties (if any) are held liable by law for structural flaws or problems in the building once it is in use (Latent Defect Liability or Decennial Liability)? (0-1)	Architect or engineer; Professional in charge of the supervision; Construction company.	1.0
Which parties (if any) are required by law to obtain an insurance policy to cover possible structural flaws or problems in the building once it is in use (Latent Defect Liability Insurance or Decennial Insurance)? (0-1)	Construction company.	1.0
<b>Professional certifications index (0-4)</b>		<b>3.0</b>
What are the qualification requirements for the professional responsible for verifying that the architectural plans or drawings are in compliance with existing building regulations? (0-2)	University degree in architecture or engineering; Being a registered architect or engineer.	1.0

What are the qualification requirements for the professional who supervises the construction on the ground? (0-2)

Minimum number of years of experience; 2.0  
University degree in engineering, construction or construction management;  
Being a registered architect or engineer.

## ⚡ Getting Electricity

This topic measures the procedures, time and cost required for a business to obtain a permanent electricity connection for a newly constructed warehouse. Additionally, the reliability of supply and transparency of tariffs index measures reliability of supply, transparency of tariffs and the price of electricity. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p><b>Procedures to obtain an electricity connection (number)</b></p> <ul style="list-style-type: none"> <li>• Submitting all relevant documents and obtaining all necessary clearances and permits</li> <li>• Completing all required notifications and receiving all necessary inspections</li> <li>• Obtaining external installation works and possibly purchasing material for these works</li> <li>• Concluding any necessary supply contract and obtaining final supply</li> </ul>	<p>To make the data comparable across economies, several assumptions about the warehouse, the electricity connection and the monthly consumption are used.</p>
<p><b>Time required to complete each procedure (calendar days)</b></p> <ul style="list-style-type: none"> <li>• Is at least 1 calendar day</li> <li>• Each procedure starts on a separate day</li> <li>• Does not include time spent gathering information</li> <li>• Reflects the time spent in practice, with little follow-up and no prior contact with officials</li> </ul>	<p><b>The warehouse:</b></p> <ul style="list-style-type: none"> <li>- Is owned by a local entrepreneur and is used for storage of goods.</li> <li>- Is located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.</li> <li>- Is located in an area where similar warehouses are typically located and is in an area with no physical constraints. For example, the property is not near a railway.</li> <li>- Is a new construction and is being connected to electricity for the first time.</li> <li>- Has two stories with a total surface area of approximately 1,300.6 square meters (14,000 square feet). The plot of land on which it is built is 929 square meters (10,000 square feet).</li> </ul>
<p><b>Cost required to complete each procedure (% of income per capita)</b></p> <ul style="list-style-type: none"> <li>• Official costs only, no bribes</li> <li>• Value added tax excluded</li> </ul>	<p><b>The electricity connection:</b></p> <ul style="list-style-type: none"> <li>- Is a permanent one with a three-phase, four-wire Y connection with a subscribed capacity of 140-kilo-volt-ampere (kVA) with a power factor of 1, when 1 kVA = 1 kilowatt (kW).</li> <li>- Has a length of 150 meters. The connection is to either the low- or medium-voltage distribution network and is either overhead or underground, whichever is more common in the area where the warehouse is located and requires works that involve the crossing of a 10-meter road (such as by excavation or overhead lines) but are all carried out on public land. There is no crossing of other owners' private property because the warehouse has access to a road.</li> <li>- Does not require work to install the internal wiring of the warehouse. This has already been completed up to and including the customer's service panel or switchboard and the meter base.</li> </ul>
<p><b>The reliability of supply and transparency of tariffs index (0-8)</b></p> <ul style="list-style-type: none"> <li>• Duration and frequency of power outages (0-3)</li> <li>• Tools to monitor power outages (0-1)</li> <li>• Tools to restore power supply (0-1)</li> <li>• Regulatory monitoring of utilities' performance (0-1)</li> <li>• Financial deterrents limiting outages (0-1)</li> <li>• Transparency and accessibility of tariffs (0-1)</li> </ul>	<p><b>The monthly consumption:</b></p> <ul style="list-style-type: none"> <li>- It is assumed that the warehouse operates 30 days a month from 9:00 a.m. to 5:00 p.m. (8 hours a day), with equipment utilized at 80% of capacity on average and that there are no electricity cuts (assumed for simplicity reasons) and the monthly energy consumption is 26,880 kilowatt-hours (kWh); hourly consumption is 112 kWh.</li> <li>- If multiple electricity suppliers exist, the warehouse is served by the cheapest supplier.</li> <li>- Tariffs effective in January of the current year are used for calculation of the price of electricity for the warehouse. Although January has 31 days, for calculation purposes only 30 days are used.</li> </ul>
<p><b>Price of electricity (cents per kilowatt-hour)*</b></p> <ul style="list-style-type: none"> <li>• Price based on monthly bill for commercial warehouse in case study</li> </ul>	

\*Note: *Doing Business* measures the price of electricity, but it is not included in the ease of doing business score nor the ranking on the ease of getting electricity.

Getting Electricity - Burkina Faso

Standardized Connection

Price of electricity (US cents per kWh)	22.0
Name of utility	Société Nationale d'Electricité du Burkina (SONABEL)
City Covered	Ouagadougou

Indicator	Burkina Faso	Sub-Saharan Africa	OECD high income	Best Regulatory Performance
Procedures (number)	4	5.2	4.5	3 (25 Economies)
Time (days)	169	112.0	77.2	18 (3 Economies)
Cost (% of income per capita)	9353.5	3456.5	64.2	0.0 (3 Economies)
Reliability of supply and transparency of tariff index (0-8)	0	1.6	7.5	8.0 (27 Economies)

Figure - Getting Electricity in Burkina Faso and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of getting electricity is determined by sorting their scores for getting electricity. These scores are the simple average of the scores for all the component indicators except the price of electricity.

Figure - Getting Electricity in Burkina Faso - Procedure, Time and Cost

\*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (<http://doingbusiness.org/en/methodology>). For details on the procedures reflected here, see the summary below.

## Details - Getting Electricity in Burkina Faso - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Submit application to SONABEL and await external inspection</b>  <i>Agency</i> : Société Nationale d'Electricité du Burkina (SONABEL)            The client applies for electricity connection in person. In addition to the application form, they need to submit a (simple) copy of the ID and a (simple) copy of the title deed.</p>	21 calendar days	XOF 0
⇒ 2	<p><b>Receive external inspection by SONABEL</b>  <i>Agency</i> : Société Nationale d'Electricité du Burkina (SONABEL)            After the application, inspectors from the electricity company, the Société Nationale d'Electricité du Burkina (SONABEL), conduct an external site inspection to determine the specifics of the connection.</p> <p>In addition to the site inspection, an inspection of the entire internal wiring should theoretically also be carried out by the Ministry of Housing or the Ministry of Infrastructure. However, in practice this is never done. The customer could also request an inspection of the internal installation from one of the private companies subcontracted by the utility, but this is optional.</p>	1 calendar day	XOF 0
3	<p><b>Await and receive external works from SONABEL's contractor</b>  <i>Agency</i> : SONABEL's Contractor            The trend is to subcontract the works (80-85% of the connection projects) to a private firm, which means Sonabel puts a contract out to public tender. These companies include, among others: SOGETEL, SIMEEL, CEDEL, PPI, EODA, and SEEF.</p> <p>A substation is needed in this case. The material is usually available, and is either bought from the electricity utility or provided by the contractor (more common).            Once the utility has selected a contractor, they prepare an estimate of the costs that the customer could then pay at the utility's offices.</p>	133 calendar days	XOF 35,000,000
4	<p><b>Obtain meter installation and final connection by SONABEL</b>  <i>Agency</i> : Société Nationale d'Electricité du Burkina (SONABEL)            The meter is installed separately by the utility. In this case, a 'double tariff' meter is installed.</p>	15 calendar days	XOF 434,485.96

⇒ Takes place simultaneously with previous procedure.

## Details - Getting Electricity in Burkina Faso - Measure of Quality

	Answer
<b>Reliability of supply and transparency of tariff index (0-8)</b>	0
<b>Total duration and frequency of outages per customer a year (0-3)</b>	0
System average interruption duration index (SAIDI)	..
System average interruption frequency index (SAIFI)	185.9
What is the minimum outage time (in minutes) that the utility considers for the calculation of SAIDI/SAIFI	N/A
<b>Mechanisms for monitoring outages (0-1)</b>	1
Does the distribution utility use automated tools to monitor outages?	Yes
<b>Mechanisms for restoring service (0-1)</b>	1
Does the distribution utility use automated tools to restore service?	Yes
<b>Regulatory monitoring (0-1)</b>	1
Does a regulator—that is, an entity separate from the utility—monitor the utility's performance on reliability of supply?	Yes
<b>Financial deterrents aimed at limiting outages (0-1)</b>	0
Does the utility either pay compensation to customers or face fines by the regulator (or both) if outages exceed a certain cap?	No
<b>Communication of tariffs and tariff changes (0-1)</b>	1
Are effective tariffs available online?	Yes
Link to the website, if available online	<a href="http://www.sonabel.bf/index.php/service-clientel/documents/categorie/11-factures-et-tarifs#">http://www.sonabel.bf/index.php/service-clientel/documents/categorie/11-factures-et-tarifs#</a>
Are customers notified of a change in tariff ahead of the billing cycle?	Yes

**Note:**

If the duration and frequency of outages is 100 or less, the economy is eligible to score on the Reliability of supply and transparency of tariff index.

If the duration and frequency of outages is not available, or is over 100, the economy is not eligible to score on the index.

If the minimum outage time considered for SAIDI/SAIFI is over 5 minutes, the economy is not eligible to score on the index.

## Registering Property

This topic examines the steps, time and cost involved in registering property, assuming a standardized case of an entrepreneur who wants to purchase land and a building that is already registered and free of title dispute. In addition, the topic also measures the quality of the land administration system in each economy. The quality of land administration index has five dimensions: reliability of infrastructure, transparency of information, geographic coverage, land dispute resolution, and equal access to property rights. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p><b>Procedures to legally transfer title on immovable property (number)</b></p> <ul style="list-style-type: none"> <li>• Preregistration procedures (for example, checking for liens, notarizing sales agreement, paying property transfer taxes)</li> <li>• Registration procedures in the economy's largest business city.</li> <li>• Postregistration procedures (for example, filling title with municipality)</li> </ul>	<p>To make the data comparable across economies, several assumptions about the parties to the transaction, the property and the procedures are used.</p>
<p><b>Time required to complete each procedure (calendar days)</b></p> <ul style="list-style-type: none"> <li>• Does not include time spent gathering information</li> <li>• Each procedure starts on a separate day - though procedures that can be fully completed online are an exception to this rule</li> <li>• Procedure is considered completed once final document is received</li> <li>• No prior contact with officials</li> </ul>	<p><b>The parties (buyer and seller):</b></p> <ul style="list-style-type: none"> <li>- Are limited liability companies (or the legal equivalent).</li> <li>- Are located in the periurban area of the economy's largest business city. For 11 economies the data are also collected for the second largest business city.</li> <li>- Are 100% domestically and privately owned.</li> <li>- Have 50 employees each, all of whom are nationals.</li> <li>- Perform general commercial activities.</li> </ul>
<p><b>Cost required to complete each procedure (% of property value)</b></p> <ul style="list-style-type: none"> <li>• Official costs only (such as administrative fees, duties and taxes).</li> <li>• Value Added Tax, Capital Gains Tax and illicit payments are excluded</li> </ul>	<p><b>The property (fully owned by the seller):</b></p> <ul style="list-style-type: none"> <li>- Has a value of 50 times income per capita, which equals the sale price.</li> <li>- Is fully owned by the seller.</li> <li>- Has no mortgages attached and has been under the same ownership for the past 10 years.</li> <li>- Is registered in the land registry or cadastre, or both, and is free of title disputes.</li> <li>- Is located in a periurban commercial zone, and no rezoning is required.</li> <li>- Consists of land and a building. The land area is 557.4 square meters (6,000 square feet). A two-story warehouse of 929 square meters (10,000 square feet) is located on the land. The warehouse is 10 years old, is in good condition, has no heating system and complies with all safety standards, building codes and legal requirements. The property, consisting of land and building, will be transferred in its entirety.</li> <li>- Will not be subject to renovations or additional construction following the purchase.</li> <li>- Has no trees, natural water sources, natural reserves or historical monuments of any kind.</li> <li>- Will not be used for special purposes, and no special permits, such as for residential use, industrial plants, waste storage or certain types of agricultural activities, are required.</li> <li>- Has no occupants, and no other party holds a legal interest in it.</li> </ul>
<p><b>Quality of land administration index (0-30)</b></p> <ul style="list-style-type: none"> <li>• Reliability of infrastructure index (0-8)</li> <li>• Transparency of information index (0-6)</li> <li>• Geographic coverage index (0-8)</li> <li>• Land dispute resolution index (0-8)</li> <li>• Equal access to property rights index (-2-0)</li> </ul>	

Registering Property - Burkina Faso

Indicator	Burkina Faso	Sub-Saharan Africa	OECD high income	Best Regulatory Performance
Procedures (number)	4	6.2	4.7	1 (4 Economies)

## Details - Registering Property in Burkina Faso - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	<p><b>Check encumbrances on the property ("etat des droits reels")</b>  <i>Agency : Land Registry ("Guichet unique foncier")</i>            Before the GUF, there was an option to accelerate the procedure and have it done in 1 day instead of 3 days. However, with the GUF the statutory time is fixed at 3 days. In practice, it takes 7 calendar days. If there are any charges on the property, there is an additional FCFA 2000 for information on each such charge. In our case, there are no charges, and therefore only the basic price applies.</p>	7 days	XOF 4,000
2	<p><b>Notarize the sale contract</b>  <i>Agency : Notary</i>            In Burkina Faso, it is mandatory to notarize the sale contract, and a common practice to ask the notary to conduct the entire registration process on behalf of the parties.</p>	1 day	XOF 539,419.04; (Notary fee schedule on a sliding scale as follows: 1 - 2.500.000 FCFA = 7% 2.500.000 - 5 000 000 FCFA = 5% 5.000.001 - 10 000 000 FCFA = 3% above 10,000,000 = 1%)
3	<p><b>Request and organize an inspection for valuation (Proces Verbal) of the property at the GUF</b>  <i>Agency : Land Registry ("Guichet unique foncier")</i>            A team of surveyors from the GUF will visit the property, and determine a value for the property, according to the conditions of the property (floor type, roof, building materials, etc.). Based on a table of values and the conditions of the property, the property value will be determined and will be registered in the GUF for taxation purposes (transfer and publication taxes). A statutory time limit of 4 days was established in 2009 to process the evaluation, as well as 2 days to register the new property valuation in the GUF.</p>	14 days	XOF 11,700; (6000 FCFA (assessment of the property) + FCFA 4000 (valuation registration) + FCFA 1700 (Stamp duty))
4	<p><b>Deposit deed of sale and pay transfer tax payment slip at Land registry</b>  <i>Agency : Land Registry ("Guichet unique foncier")</i>            The notary will pick up the Proces Verbal and then deposits the complete transfer file at the "Guichet Unique Foncier", and receives the notice of the transfer tax amount to be paid at the tax agency. The transfer tax is calculated and it's given to the notary for payment. With the transfer tax payment slip, the transfer tax is paid. According to the Decree N: 2008-164, the registry has a time limit of 4 days to get back to the GUF with a newly registered title. The transfer tax has been lowered from 10% to 8% of the property value by the "Loi des Finances 2008". The Publishing cost (frais de publication) of 1.05% is also paid at the same time. It takes about two months for the Conservation Fonciere to change the name and issue a new title. The name is also changed on tax records so that the new buyer pays future property taxes. Documents needed: (1) The Memorandum of Association and Registration at the Company Registry (2) The Notarized sale agreement (3) Copy of the Property Title (4) Proces Verbal (PV) of the survey of the property</p>	45 days	XOF 1,714,242.35; (8% of purchase price (Transfer tax) + 1.05% (publication cost))

→ Takes place simultaneously with previous procedure.

## Details - Registering Property in Burkina Faso - Measure of Quality

	Answer	Score
<b>Reliability of infrastructure index (0-8)</b>		<b>2.0</b>
What is the institution in charge of immovable property registration?	Guichet Unique Foncier	
In what format are the majority of title or deed records kept in the largest business city—in a paper format or in a computerized format (scanned or fully digital)?	Paper	0.0
Is there an electronic database for checking for encumbrances (liens, mortgages, restrictions and the like)?	No	0.0
Institution in charge of the plans showing legal boundaries in the largest business city:	Service du Cadastre et des Travaux Fonciers	
In what format are the majority of maps of land plots kept in the largest business city—in a paper format or in a computerized format (scanned or fully digital)?	Computer/Scanned	1.0
Is there an electronic database for recording boundaries, checking plans and providing cadastral information (geographic information system)?	No	0.0
Is the information recorded by the immovable property registration agency and the cadastral or mapping agency kept in a single database, in different but linked databases or in separate databases?	Separate databases	0.0
Do the immovable property registration agency and cadastral or mapping agency use the same identification number for properties?	Yes	1.0
<b>Transparency of information index (0-6)</b>		<b>3.0</b>
Who is able to obtain information on land ownership at the agency in charge of immovable property registration in the largest business city?	Anyone who pays the official fee	1.0
Is the list of documents that are required to complete any type of property transaction made publicly available—and if so, how?	Yes, on public boards	0.5
Link for online access:		
Is the applicable fee schedule for any property transaction at the agency in charge of immovable property registration in the largest business city made publicly available—and if so, how?	Yes, on public boards	0.5
Link for online access:		
Does the agency in charge of immovable property registration commit to delivering a legally binding document that proves property ownership within a specific time frame—and if so, how does it communicate the service standard?	No	0.0
Link for online access:		
Is there a specific and separate mechanism for filing complaints about a problem that occurred at the agency in charge of immovable property registration?	No	0.0
Contact information:		
Are there publicly available official statistics tracking the number of transactions at the immovable property registration agency?	No	0.0
Number of property transfers in the largest business city in 2017:		
Who is able to consult maps of land plots in the largest business city?	Freely accessible by anyone	0.5
Is the applicable fee schedule for accessing maps of land plots made publicly available—and if so, how?	Yes, on public boards	0.5
Link for online access:		
Does the cadastral or mapping agency commit to delivering an updated map within a specific time frame—and if so, how does it communicate the service standard?	No	0.0
Link for online access:		

Is there a specific and separate mechanism for filing complaints about a problem that occurred at the cadastral or mapping agency?	No	0.0
Contact information:		
<b>Geographic coverage index (0-8)</b>		<b>0.0</b>
Are all privately held land plots in the economy formally registered at the immovable property registry?	No	0.0
Are all privately held land plots in the largest business city formally registered at the immovable property registry?	No	0.0
Are all privately held land plots in the economy mapped?	No	0.0
Are all privately held land plots in the largest business city mapped?	No	0.0
<b>Land dispute resolution index (0-8)</b>		<b>6.5</b>
Does the law require that all property sale transactions be registered at the immovable property registry to make them opposable to third parties?	Yes	1.5
Is the system of immovable property registration subject to a state or private guarantee?	Yes	0.5
Is there a specific compensation mechanism to cover for losses incurred by parties who engaged in good faith in a property transaction based on erroneous information certified by the immovable property registry?	Yes	0.5
Does the legal system require a control of legality of the documents necessary for a property transaction (e.g., checking the compliance of contracts with requirements of the law)?	Yes	0.5
If yes, who is responsible for checking the legality of the documents?	Registrar; Notary;	
Does the legal system require verification of the identity of the parties to a property transaction?	Yes	0.5
If yes, who is responsible for verifying the identity of the parties?	Registrar; Notary;	
Is there a national database to verify the accuracy of identity documents?	Yes	1.0
For a standard land dispute between two local businesses over tenure rights of a property worth 50 times gross national income (GNI) per capita and located in the largest business city, what court would be in charge of the case in the first instance?	Tribunal de Grande Instance de Ouagadougou	
How long does it take on average to obtain a decision from the first-instance court for such a case (without appeal)?	Between 1 and 2 years	2.0
Are there any statistics on the number of land disputes in the first instance?	No	0.0
Number of land disputes in the largest business city in 2017:		
<b>Equal access to property rights index (-2-0)</b>		<b>0.0</b>
Do unmarried men and unmarried women have equal ownership rights to property?	Yes	
Do married men and married women have equal ownership rights to property?	Yes	0.0

## Getting Credit

This topic explores two sets of issues—the strength of credit reporting systems and the effectiveness of collateral and bankruptcy laws in facilitating lending. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p><b>Strength of legal rights index (0-12)</b></p> <ul style="list-style-type: none"> <li>• Rights of borrowers and lenders through collateral laws (0-10)</li> <li>• Protection of secured creditors' rights through bankruptcy laws (0-2)</li> </ul> <p><b>Depth of credit information index (0-8)</b></p> <ul style="list-style-type: none"> <li>• Scope and accessibility of credit information distributed by credit bureaus and credit registries (0-8)</li> </ul> <p><b>Credit bureau coverage (% of adults)</b></p> <ul style="list-style-type: none"> <li>• Number of individuals and firms listed in largest credit bureau as a percentage of adult population</li> </ul> <p><b>Credit registry coverage (% of adults)</b></p> <ul style="list-style-type: none"> <li>• Number of individuals and firms listed in credit registry as a percentage of adult population</li> </ul>	<p><i>Doing Business</i> assesses the sharing of credit information and the legal rights of borrowers and lenders with respect to secured transactions through 2 sets of indicators. The depth of credit information index measures rules and practices affecting the coverage, scope and accessibility of credit information available through a credit registry or a credit bureau. The strength of legal rights index measures the degree to which collateral and bankruptcy laws protect the rights of borrowers and lenders and thus facilitate lending. For each economy it is first determined whether a unitary secured transactions system exists. Then two case scenarios, case A and case B, are used to determine how a nonpossessory security interest is created, publicized and enforced according to the law. Special emphasis is given to how the collateral registry operates (if registration of security interests is possible). The case scenarios involve a secured borrower, company ABC, and a secured lender, BizBank.</p> <p>In some economies the legal framework for secured transactions will allow only case A or case B (not both) to apply. Both cases examine the same set of legal provisions relating to the use of movable collateral.</p> <p><b>Several assumptions about the secured borrower (ABC) and lender (BizBank) are used:</b></p> <ul style="list-style-type: none"> <li>- ABC is a domestic limited liability company (or its legal equivalent).</li> <li>- ABC has up to 50 employees.</li> <li>- ABC has its headquarters and only base of operations in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.</li> <li>- Both ABC and BizBank are 100% domestically owned.</li> </ul> <p>The case scenarios also involve assumptions. In case A, as collateral for the loan, ABC grants BizBank a nonpossessory security interest in one category of movable assets, for example, its machinery or its inventory. ABC wants to keep both possession and ownership of the collateral. In economies where the law does not allow nonpossessory security interests in movable property, ABC and BizBank use a fiduciary transfer-of-title arrangement (or a similar substitute for nonpossessory security interests).</p> <p>In case B, ABC grants BizBank a business charge, enterprise charge, floating charge or any charge that gives BizBank a security interest over ABC's combined movable assets (or as much of ABC's movable assets as possible). ABC keeps ownership and possession of the assets.</p>

Getting Credit - Burkina Faso

Indicator	Burkina Faso	Sub-Saharan Africa	OECD high income	Best Regulatory Performance
Strength of legal rights index (0-12)	6	5.2	6.1	12 (5 Economies)
Depth of credit information index (0-8)	0	3.3	6.7	8 (42 Economies)
Credit registry coverage (% of adults)	0.5	7.0	21.8	100.0 (4 Economies)
Credit bureau coverage (% of adults)	1.1	8.9	65.3	100.0 (25 Economies)

Figure - Getting Credit in Burkina Faso and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of getting credit is determined by sorting their scores for getting credit. These scores are the sum of the scores for the strength of legal rights index and the depth of credit information index.

Figure - Legal Rights in Burkina Faso and comparator economies

Details - Legal Rights in Burkina Faso

Strength of legal rights index (0-12)

6

Does an integrated or unified legal framework for secured transactions that extends to the creation, publicity and enforcement of functional equivalents to security interests in movable assets exist in the economy?	Yes
Does the law allow businesses to grant a non possessory security right in a single category of movable assets, without requiring a specific description of collateral?	Yes
Does the law allow businesses to grant a non possessory security right in substantially all of its assets, without requiring a specific description of collateral?	Yes
May a security right extend to future or after-acquired assets, and does it extend automatically to the products, proceeds and replacements of the original assets?	Yes
Is a general description of debts and obligations permitted in collateral agreements; can all types of debts and obligations be secured between parties; and can the collateral agreement include a maximum amount for which the assets are encumbered?	Yes
Is a collateral registry in operation for both incorporated and non-incorporated entities, that is unified geographically and by asset type, with an electronic database indexed by debtor's name?	No
Does a notice-based collateral registry exist in which all functional equivalents can be registered?	No
Does a modern collateral registry exist in which registrations, amendments, cancellations and searches can be performed online by any interested third party?	No
Are secured creditors paid first (i.e. before tax claims and employee claims) when a debtor defaults outside an insolvency procedure?	No
Are secured creditors paid first (i.e. before tax claims and employee claims) when a business is liquidated?	No
Are secured creditors subject to an automatic stay on enforcement when a debtor enters a court-supervised reorganization procedure? Does the law protect secured creditors' rights by providing clear grounds for relief from the stay and sets a time limit for it?	No
Does the law allow parties to agree on out of court enforcement at the time a security interest is created? Does the law allow the secured creditor to sell the collateral through public auction or private tender, as well as, for the secured creditor to keep the asset in satisfaction of the debt?	Yes

## Details - Credit Information in Burkina Faso

Depth of credit information index (0-8)	Credit bureau	Credit registry	Score
Are data on both firms and individuals distributed?	No	No	0
Are both positive and negative credit data distributed?	No	No	0
Are data from retailers or utility companies - in addition to data from banks and financial institutions - distributed?	No	No	0
Are at least 2 years of historical data distributed? (Credit bureaus and registries that distribute more than 10 years of negative data or erase data on defaults as soon as they are repaid obtain a score of 0 for this component.)	No	No	0
Are data on loan amounts below 1% of income per capita distributed?	No	No	0
By law, do borrowers have the right to access their data in the credit bureau or credit registry?	No	No	0
Can banks and financial institutions access borrowers' credit information online (for example, through an online platform, a system-to-system connection or both)?	No	No	0
Are bureau or registry credit scores offered as a value-added service to help banks and financial institutions assess the creditworthiness of borrowers?	No	No	0
<b>Total Score ("yes" to either public bureau or private registry)</b>			<b>0</b>

Note: An economy receives a score of 1 if there is a "yes" to either bureau or registry. If the credit bureau or registry is not operational or covers less than 5% of the adult population, the total score on the depth of credit information index is 0.

Coverage	Credit bureau	Credit registry
Number of individuals	104,234	N/A
Number of firms	1,528	N/A
Total	105,762	49,414
<b>Percentage of adult population</b>	<b>1.1</b>	<b>0.5</b>

## Protecting Minority Investors

This topic measures the strength of minority shareholder protections against misuse of corporate assets by directors for their personal gain as well as shareholder rights, governance safeguards and corporate transparency requirements that reduce the risk of abuse. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

### What the indicators measure

- **Extent of disclosure index (0-10):** Review and approval requirements for related-party transactions; Disclosure requirements for related-party transactions
- **Extent of director liability index (0-10):** Ability of minority shareholders to sue and hold interested directors liable for prejudicial related-party transactions; Available legal remedies (damages, disgorgement of profits, fines, imprisonment, rescission of the transaction)
- **Ease of shareholder suits index (0-10):** Access to internal corporate documents; Evidence obtainable during trial and allocation of legal expenses
- **Extent of conflict of interest regulation index (0-10):** Simple average of the extent of disclosure, extent of director liability and ease of shareholder indices
- **Extent of shareholder rights index (0-10):** Shareholders' rights and role in major corporate decisions
- **Extent of ownership and control index (0-10):** Governance safeguards protecting shareholders from undue board control and entrenchment
- **Extent of corporate transparency index (0-10):** Corporate transparency on ownership stakes, compensation, audits and financial prospects
- **Extent of shareholder governance index (0-10):** Simple average of the extent of shareholders rights, extent of ownership and control and extent of corporate transparency indices
- **Strength of minority investor protection index (0-10):** Simple average of the extent of conflict of interest regulation and extent of shareholder governance indices

### Case study assumptions

To make the data comparable across economies, a case study uses several assumptions about the business and the transaction.

#### The business (Buyer):

- Is a publicly traded corporation listed on the economy's most important stock exchange. If there are fewer than ten listed companies or if there is no stock exchange in the economy, it is assumed that Buyer is a large private company with multiple shareholders.
- Has a board of directors and a chief executive officer (CEO) who may legally act on behalf of Buyer where permitted, even if this is not specifically required by law.
- Has a supervisory board in economies with a two-tier board system on which Mr. James appointed 60% of the shareholder-elected members.
- Has not adopted bylaws or articles of association that go beyond the minimum requirements. Does not follow codes, principles, recommendations or guidelines that are not mandatory.
- Is a manufacturing company with its own distribution network.

#### The transaction involves the following details:

- Mr. James owns 60% of Buyer, sits on Buyer's board of directors and elected two directors to Buyer's five-member board.
- Mr. James also owns 90% of Seller, a company that operates a chain of retail hardware stores. Seller recently closed a large number of its stores.
- Mr. James proposes that Buyer purchase Seller's unused fleet of trucks to expand Buyer's distribution of its food products, a proposal to which Buyer agrees. The price is equal to 10% of Buyer's assets and is higher than the market value.
- The proposed transaction is part of the company's principal activity and is not outside the authority of the company.
- Buyer enters into the transaction. All required approvals are obtained, and all required disclosures made—that is, the transaction was not entered into fraudulently.
- The transaction causes damages to Buyer. Shareholders sue Mr. James and the executives and directors that approved the transaction.

Protecting Minority Investors - Burkina Faso

Indicator	Burkina Faso	Sub-Saharan Africa	OECD high income	Best Regulatory Performance
Extent of disclosure index (0-10)	7.0	5.5	6.5	10 (13 Economies)
Extent of director liability index (0-10)	1.0	3.5	5.3	10 (Cambodia)
Ease of shareholder suits index (0-10)	5.0	5.5	7.3	10 (Djibouti)
Extent of shareholder rights index (0-10)	4.0	4.6	6.4	10 (Kazakhstan)
Extent of ownership and control index (0-10)	3.0	3.4	5.4	None in 2017/18
Extent of corporate transparency index (0-10)	4.0	4.1	7.6	10 (6 Economies)

Figure - Protecting Minority Investors in Burkina Faso and comparator economies - Ranking and Score

Note: The ranking of economies on the strength of minority investor protections is determined by sorting their scores for protecting minority investors. These scores are the simple average of the scores for the extent of conflict of interest regulation index and the extent of shareholder governance index.

## Details - Protecting Minority Investors in Burkina Faso - Measure of Quality

	Answer	Score
<b>Extent of conflict of interest regulation index (0-10)</b>		<b>4.3</b>
<b>Extent of disclosure index (0-10)</b>		<b>7.0</b>
Whose decision is sufficient to approve the Buyer-Seller transaction? (0-3)	Shareholders excluding interested parties	3.0
Must an external body review the terms of the transaction before it takes place? (0-1)	No	0.0
Must Mr. James disclose his conflict of interest to the board of directors? (0-2)	Full disclosure of all material facts	2.0
Must Buyer disclose the transaction in periodic filings (e.g. annual reports)? (0-2)	Disclosure on the transaction and on the conflict of interest	2.0
Must Buyer immediately disclose the transaction to the public? (0-2)	No disclosure obligation	0.0
<b>Extent of director liability index (0-10)</b>		<b>1.0</b>
Can shareholders representing 10% of Buyer's share capital sue for the damage the transaction caused to Buyer? (0-1)	Yes	1.0
Can shareholders hold Mr. James liable for the damage the transaction caused to Buyer? (0-2)	Not liable	0.0
Can shareholders hold the other directors liable for the damage the transaction caused to Buyer (0-2)	Not liable	0.0
Must Mr. James pay damages for the harm caused to Buyer upon a successful claim by shareholders? (0-1)	No	0.0
Must Mr. James repay profits made from the transaction upon a successful claim by shareholders? (0-1)	No	0.0
Is Mr. James disqualified upon a successful claim by shareholders? (0-1)	No	0.0
Can a court void the transaction upon a successful claim by shareholders? (0-2)	Only in case of fraud or bad faith	0.0
<b>Ease of shareholder suits index (0-10)</b>		<b>5.0</b>
Before suing, can shareholders representing 10% of Buyer's share capital inspect the transaction documents? (0-1)	Yes	1.0
Can the plaintiff obtain any documents from the defendant and witnesses at trial? (0-3)	Documents that directly prove specific facts in the plaintiff's claim	2.0
Can the plaintiff request categories of documents from the defendant without identifying specific ones? (0-1)	No	0.0
Can the plaintiff directly question the defendant and witnesses at trial? (0-2)	Preapproved questions only	1.0
Is the level of proof required for civil suits lower than that of criminal cases? (0-1)	No	0.0
Can shareholder plaintiffs recover their legal expenses from the company? (0-2)	Yes if successful	1.0
<b>Extent of shareholder governance index (0-10)</b>		<b>3.7</b>
<b>Extent of shareholder rights index (0-10)</b>		<b>4.0</b>
Does the sale of 51% of Buyer's assets require shareholder approval?	No	0.0
Can shareholders representing 10% of Buyer's share capital call for a meeting of shareholders?	Yes	1.0
Must Buyer obtain its shareholders' approval every time it issues new shares?	Yes	1.0

Do shareholders automatically receive preemption rights every time Buyer issues new shares?	No	0.0
Must shareholders approve the election and dismissal of the external auditor?	Yes	1.0
Are changes to the rights of a class of shares only possible if the holders of the affected shares approve?	Yes	1.0
Assuming that Buyer is a limited company, does the sale of 51% of its assets require member approval?	No	0.0
Assuming that Buyer is a limited company, can members representing 10% call for a meeting of members?	No	0.0
Assuming that Buyer is a limited company, must all or almost all members consent to add a new member?	No	0.0
Assuming that Buyer is a limited company, must a member first offer to sell their interest to the existing members before they can sell to non-members?	No	0.0
<b>Extent of ownership and control index (0-10)</b>		<b>3.0</b>
Is it forbidden to appoint the same individual as CEO and chairperson of the board of directors?	No	0.0
Must the board of directors include independent and nonexecutive board members?	No	0.0
Can shareholders remove members of the board of directors without cause before the end of their term?	Yes	1.0
Must the board of directors include a separate audit committee exclusively comprising board members?	No	0.0
Must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	No	0.0
Must Buyer pay declared dividends within a maximum period set by law?	Yes	1.0
Is a subsidiary prohibited from acquiring shares issued by its parent company?	No	0.0
Assuming that Buyer is a limited company, must Buyer have a mechanism to resolve disagreements among members?	No	0.0
Assuming that Buyer is a limited company, must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	No	0.0
Assuming that Buyer is a limited company, must Buyer distribute profits within a maximum period set by law?	Yes	1.0
<b>Extent of corporate transparency index (0-10)</b>		<b>4.0</b>
Must Buyer disclose direct and indirect beneficial ownership stakes representing 5%?	No	0.0
Must Buyer disclose information about board members' primary employment and directorships in other companies?	No	0.0
Must Buyer disclose the compensation of individual managers?	No	0.0
Must a detailed notice of general meeting be sent 21 days before the meeting?	No	0.0
Can shareholders representing 5% of Buyer's share capital put items on the general meeting agenda?	Yes	1.0
Must Buyer's annual financial statements be audited by an external auditor?	Yes	1.0
Must Buyer disclose its audit reports to the public?	No	0.0
Assuming that Buyer is a limited company, must members meet at least once a year?	Yes	1.0
Assuming that Buyer is a limited company, can members representing 5% put items on the meeting agenda?	No	0.0
Assuming that Buyer is a limited company, must Buyer's annual financial statements be audited by an external auditor?	Yes	1.0

## Paying Taxes

This topic records the taxes and mandatory contributions that a medium-size company must pay or withhold in a given year, as well as the administrative burden of paying taxes and contributions and complying with postfiling procedures (VAT refund and tax audit). The most recent round of data collection for the project was completed in May 2018 covering for the Paying Taxes indicator calendar year 2017 (January 1, 2017 – December 31, 2017). [See the methodology for more information.](#)

### What the indicators measure

#### Tax payments for a manufacturing company in 2017 (number per year adjusted for electronic and joint filing and payment)

- Total number of taxes and contributions paid or withheld, including consumption taxes (value added tax, sales tax or goods and service tax)
- Method and frequency of filing and payment

#### Time required to comply with 3 major taxes (hours per year)

- Collecting information, computing tax payable
- Preparing separate tax accounting books, if required
- Completing tax return, filing with agencies
- Arranging payment or withholding

#### Total tax and contribution rate (% of commercial profits)

- Profit or corporate income tax
- Social contributions, labor taxes paid by employer
- Property and property transfer taxes
- Dividend, capital gains, financial transactions taxes
- Waste collection, vehicle, road and other taxes

#### Postfiling Index

- Time to comply with a VAT refund (hours)
- Time to obtain a VAT refund (weeks)
- Time to comply with a corporate income tax correction (hours)
- Time to complete a corporate income tax correction (weeks)

### Case study assumptions

Using a case scenario, *Doing Business* records taxes and mandatory contributions a medium size company must pay in a year, and measures the administrative burden of paying taxes, contributions and dealing with postfiling processes. Information is also compiled on frequency of filing and payments, time taken to comply with tax laws, time taken to comply with the requirements of postfiling processes and time waiting.

To make data comparable across economies, several assumptions are used:  
 - TaxpayerCo is a medium-size business that started operations on January 1, 2016. It produces ceramic flowerpots and sells them at retail. All taxes and contributions recorded are paid in the second year of operation (calendar year 2017). Taxes and mandatory contributions are measured at all levels of government.

#### The VAT refund process:

- In June 2017, TaxpayerCo. makes a large capital purchase: the value of the machine is 65 times income per capita of the economy. Sales are equally spread per month (1,050 times income per capita divided by 12) and cost of goods sold are equally expensed per month (875 times income per capita divided by 12). The machinery seller is registered for VAT and excess input VAT incurred in June will be fully recovered after four consecutive months if the VAT rate is the same for inputs, sales and the machine and the tax reporting period is every month. Input VAT will exceed Output VAT in June 2017.

#### The corporate income tax audit process:

- An error in calculation of income tax liability (for example, use of incorrect tax depreciation rates, or incorrectly treating an expense as tax deductible) leads to an incorrect income tax return and a corporate income tax underpayment. TaxpayerCo. discovered the error and voluntarily notified the tax authority. The value of the underpaid income tax liability is 5% of the corporate income tax liability due. TaxpayerCo. submits corrected information after the deadline for submitting the annual tax return, but within the tax assessment period.

**Paying Taxes - Burkina Faso**

Indicator	Burkina Faso	Sub-Saharan Africa	OECD high income	Best Regulatory Performance
Payments (number per year)	45	37.4	11.2	3 (Hong Kong SAR, China)
Time (hours per year)	270	280.6	159.4	49 (Singapore)
Total tax and contribution rate (% of profit)	41.3	46.8	39.8	26.1% (32 Economies)
Postfiling index (0-100)	49.31	54.63	84.41	None in 2017/18

**Figure - Paying Taxes in Burkina Faso and comparator economies - Ranking and Score**

Note: The ranking of economies on the ease of paying taxes is determined by sorting their scores for paying taxes. These scores are the simple average of the scores for each of the component indicators, with a threshold and a nonlinear transformation applied to one of the component indicators, the total tax and contribution rate. The threshold is defined as the total tax and contribution rate at the 15th percentile of the overall distribution for all years included in the analysis up to and including Doing Business 2015, which is 26.1%. All economies with a total tax and contribution rate below this threshold receive the same score as the economy at the threshold.

## Details - Paying Taxes in Burkina Faso

Tax or mandatory contribution	Payments (number)	Notes on Payments	Time (hours)	Statutory tax rate	Tax base	Total tax and contribution rate (% of profit)	Notes on TTCR
Social security contributions	12.0		120.0	16%	gross salaries	18.05	
Corporate income tax	1.0		30.0	27.5%	taxable profit	16.24	
Payroll and apprentice tax	12.0			3%	gross salaries	3.38	
Business license	1.0			8% + fixed amount	assets	2.47	
Mortmain property tax	1.0			10%	property value after deduction	0.50	
Interest tax	1.0			12.5%	interest income	0.32	
Tax on insurance contracts	1.0			20%	insurance premium	0.20	
Motor vehicle tax	1.0			XOF 50,000	weight of truck	0.13	
Advertising tax	1.0					0.00	small amount
Employee paid - Social security contributions	0.0	jointly		5.5%	gross salaries	0.00	withheld
Fuel tax	1.0				included in fuel price	0.00	small amount
Stamp duty on contracts	1.0			XOF 400	per page	0.00	small amount
Value added tax (VAT)	12.0		120.0	18%	value added	0.00	not included
Totals	45		270			41.3	

## Details - Paying Taxes in Burkina Faso - Tax by Type

Taxes by type	Answer
Profit tax (% of profit)	16.2
Labor tax and contributions (% of profit)	21.4
Other taxes (% of profit)	3.6

## Details - Paying Taxes in Burkina Faso - Measure of Quality

	Answer	Score
<b>Postfiling index (0-100)</b>		<b>49.31</b>
<b>VAT refunds</b>		
Does VAT exist?	Yes	
Does a VAT refund process exist per the case study?	No	
Restrictions on VAT refund process	Restricted to international traders and others	
Percentage of cases exposed to a VAT audit (%)	Not applicable	
Is there a mandatory carry forward period?	No	
Time to comply with VAT refund (hours)	No VAT refund per case study scenario	0
Time to obtain a VAT refund (weeks)	No VAT refund per case study scenario	0
<b>Corporate income tax audits</b>		
Does corporate income tax exist?	Yes	
Percentage of cases exposed to a corporate income tax audit (%)	0% - 24%	
Time to comply with a corporate income tax correction (hours)	3.0	97.25
Time to complete a corporate income tax correction (weeks)	No tax audit per case study scenario	100

**Notes:** Names of taxes have been standardized. For instance income tax, profit tax, tax on company's income are all named corporate income tax in this table.

The hours for VAT include all the VAT and sales taxes applicable.

The hours for Social Security include all the hours for labor taxes and mandatory contributions in general.

The postfiling index is the average of the scores on time to comply with VAT refund, time to obtain a VAT refund, time to comply with a corporate income tax correction and time to complete a corporate income tax correction.

N/A = Not applicable.

## Trading across Borders

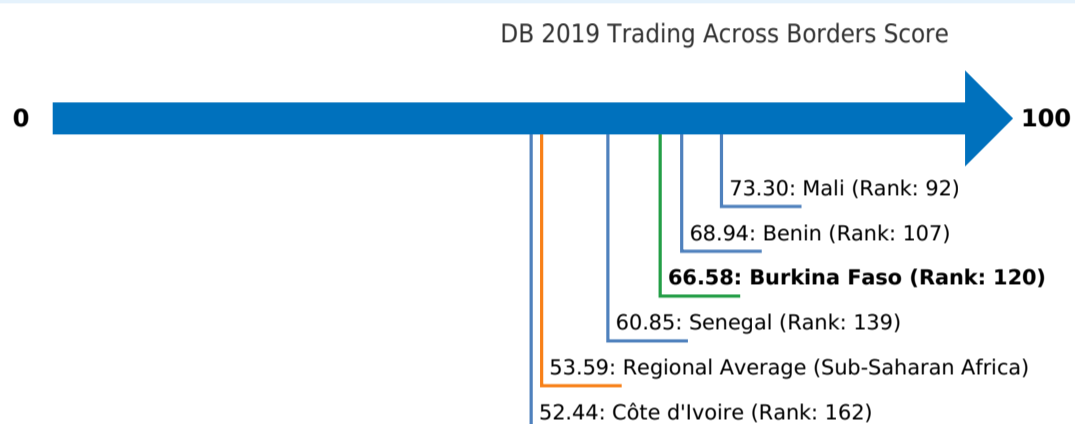

*Doing Business* records the time and cost associated with the logistical process of exporting and importing goods. *Doing Business* measures the time and cost (excluding tariffs) associated with three sets of procedures—documentary compliance, border compliance and domestic transport—within the overall process of exporting or importing a shipment of goods. The most recent round of data collection for the project was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p><b>Documentary compliance</b></p> <ul style="list-style-type: none"> <li>• Obtaining, preparing and submitting documents during transport, clearance, inspections and port or border handling in origin economy</li> <li>• Obtaining, preparing and submitting documents required by destination economy and any transit economies</li> <li>• Covers all documents required by law and in practice, including electronic submissions of information</li> </ul> <p><b>Border compliance</b></p> <ul style="list-style-type: none"> <li>• Customs clearance and inspections</li> <li>• Inspections by other agencies (if applied to more than 20% of shipments)</li> <li>• Handling and inspections that take place at the economy's port or border</li> </ul> <p><b>Domestic transport</b></p> <ul style="list-style-type: none"> <li>• Loading or unloading of the shipment at the warehouse or port/border</li> <li>• Transport between warehouse and port/border</li> <li>• Traffic delays and road police checks while shipment is en route</li> </ul>	<p>To make the data comparable across economies, a few assumptions are made about the traded goods and the transactions:</p> <p><b>Time:</b> Time is measured in hours, and 1 day is 24 hours (for example, 22 days are recorded as 22×24=528 hours). If customs clearance takes 7.5 hours, the data are recorded as is. Alternatively, suppose documents are submitted to a customs agency at 8:00a.m., are processed overnight and can be picked up at 8:00a.m. the next day. The time for customs clearance would be recorded as 24 hours because the actual procedure took 24 hours.</p> <p><b>Cost:</b> Insurance cost and informal payments for which no receipt is issued are excluded from the costs recorded. Costs are reported in U.S. dollars. Contributors are asked to convert local currency into U.S. dollars based on the exchange rate prevailing on the day they answer the questionnaire. Contributors are private sector experts in international trade logistics and are informed about exchange rates.</p> <p><b>Assumptions of the case study:</b></p> <ul style="list-style-type: none"> <li>- For all 190 economies covered by <i>Doing Business</i>, it is assumed a shipment is in a warehouse in the largest business city of the exporting economy and travels to a warehouse in the largest business city of the importing economy.</li> <li>- It is assumed each economy imports 15 metric tons of containerized auto parts (HS 8708) from its natural import partner—the economy from which it imports the largest value (price times quantity) of auto parts. It is assumed each economy exports the product of its comparative advantage (defined by the largest export value) to its natural export partner—the economy that is the largest purchaser of this product. Shipment value is assumed to be \$50,000.</li> <li>- The mode of transport is the one most widely used for the chosen export or import product and the trading partner, as is the seaport or land border crossing.</li> <li>- All electronic information submissions requested by any government agency in connection with the shipment are considered to be documents obtained, prepared and submitted during the export or import process.</li> <li>- A port or border is a place (seaport or land border crossing) where merchandise can enter or leave an economy.</li> <li>- Relevant government agencies include customs, port authorities, road police, border guards, standardization agencies, ministries or departments of agriculture or industry, national security agencies and any other government authorities.</li> </ul>

Trading across Borders - Burkina Faso

Indicator	Burkina Faso	Sub-Saharan Africa	OECD high income	Best Regulatory Performance
Time to export: Border compliance (hours)	75	97.3	12.5	1 (19 Economies)
Cost to export: Border compliance (USD)	261	605.8	139.1	0 (19 Economies)
Time to export: Documentary compliance (hours)	84	72.8	2.4	1 (26 Economies)
Cost to export: Documentary compliance (USD)	86	168.8	35.2	0 (20 Economies)
Time to import: Border compliance (hours)	102	126.3	8.5	0 (25 Economies)
Cost to import: Border compliance (USD)	265	684.3	100.2	0 (28 Economies)
Time to import: Documentary compliance (hours)	96	97.7	3.4	1 (30 Economies)
Cost to import: Documentary compliance (USD)	197	283.5	24.9	0 (30 Economies)

Figure - Trading across Borders in Burkina Faso and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of trading across borders is determined by sorting their scores for trading across borders. These scores are the simple average of the scores for the time and cost for documentary compliance and border compliance to export and import.

Packing list	Declaration of release for consumption
Acquis de passage	Certificate of conformity
Bill of lading	Bill of lading
SOLAS certificate	SOLAS certificate

## Enforcing Contracts

The enforcing contracts indicator measures the time and cost for resolving a commercial dispute through a local first-instance court, and the quality of judicial processes index, evaluating whether each economy has adopted a series of good practices that promote quality and efficiency in the court system. The most recent round of data collection was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<p><b>Time required to enforce a contract through the courts (calendar days)</b></p> <ul style="list-style-type: none"> <li>• Time to file and serve the case</li> <li>• Time for trial and to obtain the judgment</li> <li>• Time to enforce the judgment</li> </ul> <p><b>Cost required to enforce a contract through the courts (% of claim)</b></p> <ul style="list-style-type: none"> <li>• Attorney fees</li> <li>• Court fees</li> <li>• Enforcement fees</li> </ul> <p><b>Quality of judicial processes index (0-18)</b></p> <ul style="list-style-type: none"> <li>• Court structure and proceedings (-1-5)</li> <li>• Case management (0-6)</li> <li>• Court automation (0-4)</li> <li>• Alternative dispute resolution (0-3)</li> </ul>	<p>The dispute in the case study involves the breach of a sales contract between 2 domestic businesses. The case study assumes that the court hears an expert on the quality of the goods in dispute. This distinguishes the case from simple debt enforcement.</p> <p>To make the data comparable across economies, <i>Doing Business</i> uses several assumptions about the case:</p> <ul style="list-style-type: none"> <li>- The dispute concerns a lawful transaction between two businesses (Seller and Buyer), both located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.</li> <li>- The buyer orders custom-made goods, then fails to pay alleging that the goods are not of adequate quality.</li> <li>- The value of the dispute is 200% of the income per capita or the equivalent in local currency of USD 5,000, whichever is greater.</li> <li>- The seller sues the buyer before the court with jurisdiction over commercial cases worth 200% of income per capita or \$5,000.</li> <li>- The seller requests the pretrial attachment of the defendant's movable assets to secure the claim.</li> <li>- The dispute on the quality of the goods requires an expert opinion.</li> <li>- The judge decides in favor of the seller; there is no appeal.</li> <li>- The seller enforces the judgment through a public sale of the buyer's movable assets.</li> </ul>

	Answer	Score
<b>Quality of judicial processes index (0-18)</b>		<b>7.5</b>
<b>Court structure and proceedings (-1-5)</b>		<b>4.0</b>
1. Is there a court or division of a court dedicated solely to hearing commercial cases?	Yes	1.5
2. Small claims court		1.5
2.a. Is there a small claims court or a fast-track procedure for small claims?	Yes	
2.b. If yes, is self-representation allowed?	Yes	
3. Is pretrial attachment available?	Yes	1.0
4. Are new cases assigned randomly to judges?	No	0.0
5. Does a woman's testimony carry the same evidentiary weight in court as a man's?	Yes	0.0
<b>Case management (0-6)</b>		<b>1.0</b>
1. Time standards		0.0
1.a. Are there laws setting overall time standards for key court events in a civil case?	Yes	
1.b. If yes, are the time standards set for at least three court events?	No	
1.c. Are these time standards respected in more than 50% of cases?	Yes	
2. Adjournments		0.0
2.a. Does the law regulate the maximum number of adjournments that can be granted?	No	
2.b. Are adjournments limited to unforeseen and exceptional circumstances?	No	
2.c. If rules on adjournments exist, are they respected in more than 50% of cases?	n.a.	
3. Can two of the following four reports be generated about the competent court: (i) time to disposition report; (ii) clearance rate report; (iii) age of pending cases report; and (iv) single case progress report?	No	0.0
4. Is a pretrial conference among the case management techniques used before the competent court?	Yes	1.0
5. Are there any electronic case management tools in place within the competent court for use by judges?	No	0.0
6. Are there any electronic case management tools in place within the competent court for use by lawyers?	No	0.0
<b>Court automation (0-4)</b>		<b>0.0</b>
1. Can the initial complaint be filed electronically through a dedicated platform within the competent court?	no	0.0
2. Is it possible to carry out service of process electronically for claims filed before the competent court?	No	0.0
3. Can court fees be paid electronically within the competent court?	No	0.0
4. Publication of judgments		0.0
4.a. Are judgments rendered in commercial cases at all levels made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
4.b. Are judgments rendered in commercial cases at the appellate and supreme court level made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
<b>Alternative dispute resolution (0-3)</b>		<b>2.5</b>
1. Arbitration		1.5

1.a. Is domestic commercial arbitration governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all its aspects?	Yes	
1.b. Are there any commercial disputes—aside from those that deal with public order or public policy—that cannot be submitted to arbitration?	No	
1.c. Are valid arbitration clauses or agreements usually enforced by the courts?	Yes	
2. Mediation/Conciliation		1.0
2.a. Is voluntary mediation or conciliation available?	Yes	
2.b. Are mediation, conciliation or both governed by a consolidated law or consolidated chapter or section of the applicable code of civil procedure encompassing substantially all their aspects?	Yes	
2.c. Are there financial incentives for parties to attempt mediation or conciliation (i.e., if mediation or conciliation is successful, a refund of court filing fees, income tax credits or the like)?	No	

## Resolving Insolvency

*Doing Business* studies the time, cost and outcome of insolvency proceedings involving domestic legal entities. These variables are used to calculate the recovery rate, which is recorded as cents on the dollar recovered by secured creditors through reorganization, liquidation or debt enforcement (foreclosure or receivership) proceedings. To determine the present value of the amount recovered by creditors, *Doing Business* uses the lending rates from the International Monetary Fund, supplemented with data from central banks and the Economist Intelligence Unit. The most recent round of data collection was completed in May 2018. [See the methodology for more information.](#)

What the indicators measure	Case study assumptions
<b>Time required to recover debt (years)</b>	To make the data on the time, cost and outcome comparable across economies, several assumptions about the business and the case are used:
<ul style="list-style-type: none"> <li>• Measured in calendar years</li> <li>• Appeals and requests for extension are included</li> </ul>	<ul style="list-style-type: none"> <li>- A hotel located in the largest city (or cities) has 201 employees and 50 suppliers. The hotel experiences financial difficulties.</li> </ul>
<b>Cost required to recover debt (% of debtor's estate)</b>	<ul style="list-style-type: none"> <li>- The value of the hotel is 100% of the income per capita or the equivalent in local currency of USD 200,000, whichever is greater.</li> </ul>
<ul style="list-style-type: none"> <li>• Measured as percentage of estate value</li> <li>• Court fees</li> <li>• Fees of insolvency administrators</li> <li>• Lawyers' fees</li> <li>• Assessors' and auctioneers' fees</li> <li>• Other related fees</li> </ul>	<ul style="list-style-type: none"> <li>- The hotel has a loan from a domestic bank, secured by a mortgage over the hotel's real estate. The hotel cannot pay back the loan, but makes enough money to operate otherwise.</li> </ul>
<b>Outcome</b>	In addition, <i>Doing Business</i> evaluates the quality of legal framework applicable to judicial liquidation and reorganization proceedings and the extent to which best insolvency practices have been implemented in each economy covered.
<ul style="list-style-type: none"> <li>• Whether business continues operating as a going concern or business assets are sold piecemeal</li> </ul>	
<b>Recovery rate for creditors</b>	
<ul style="list-style-type: none"> <li>• Measures the cents on the dollar recovered by secured creditors</li> <li>• Outcome for the business (survival or not) determines the maximum value that can be recovered</li> <li>• Official costs of the insolvency proceedings are deducted</li> <li>• Depreciation of furniture is taken into account</li> <li>• Present value of debt recovered</li> </ul>	
<b>Strength of insolvency framework index (0- 16)</b>	
<ul style="list-style-type: none"> <li>• Sum of the scores of four component indices:</li> <li>• Commencement of proceedings index (0-3)</li> <li>• Management of debtor's assets index (0-6)</li> <li>• Reorganization proceedings index (0-3)</li> <li>• Creditor participation index (0-4)</li> </ul>	

Resolving Insolvency - Burkina Faso

Indicator	Burkina Faso	Sub-Saharan Africa	OECD high income	Best Regulatory Performance
Recovery rate (cents on the dollar)	23.7	20.3	70.5	None in 2017/18
Time (years)	4.0	2.9	1.7	0.4 (Ireland)
Cost (% of estate)	21.0	22.7	9.3	1.0 (Norway)
Outcome (0 as piecemeal sale and 1 as going concern)	0	..	..	..
Strength of insolvency framework index (0-16)	9.0	6.4	11.9	None in 2017/18

Figure - Resolving Insolvency in Burkina Faso and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of resolving insolvency is determined by sorting their scores for resolving insolvency. These scores are the simple average of the scores for the recovery rate and the strength of insolvency framework index.

Figure - Resolving Insolvency in Burkina Faso - Time and Cost

Figure - Resolving Insolvency in Burkina Faso and comparator economies - Measure of Quality

Note: Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

## Details - Resolving Insolvency in Burkina Faso

Indicator	Answer	Score
Proceeding	liquidation (after an attempt at reorganization)	As Mirage will not be able to settle its current liabilities with its available assets, it will file a declaration of cessation of payments (article 25 of the Uniform Act Organizing Collective Proceedings for Wiping Off Debts). In order to continue operating, Mirage will try to obtain the opening of reorganization proceedings and avoid liquidation. Under article 27, a composition proposal is a proposal lodged no later than 15 days following the declaration of cessation of payments, specifying the measures and conditions envisaged to redress the company. According to our information, Mirage will not reach an agreement with its creditors, so the composition proposal will not succeed and the court will convert the proceedings to liquidation some months after the lodging of the proposal (article 33 of the Uniform Act). A reorganization proceeding that is later converted into liquidation is the most likely proceeding in Burkina Faso.
Outcome	piecemeal sale	According to our estimations, the reorganization attempt will fail and the proceedings will probably be converted to liquidation. The hotel will stop operating and will be dismantled, and the assets of the debtor will be sold separately.
Time (in years)	4.0	According to our estimations, a reorganization attempt that is later converted into liquidation takes approximately 48 months. Mirage will file a declaration of cessation of payments to obtain the opening of reorganization proceedings. The declaration has to be done 30 days following the cessation of payments. The competent court will then declare cessation of payments and open reorganization proceedings. The parties will try to reach an agreement on a composition plan. 6 months later, the attempt will fail, so the proceedings will be converted to liquidation. The liquidation of Mirage will take approximately 42 months.
Cost (% of estate)	21.0	According to our estimations, a reorganization attempt that is later converted into liquidation costs approximately XOF 9,000,000 (21 % of the value of the estate). Lawyer fees (5-10%), accountant fees (5-10%), and bailiff fees (8-10%) are the main costs of the proceedings.
Recovery rate (cents on the dollar)		23.7

## Details - Resolving Insolvency in Burkina Faso - Measure of Quality

	Answer	Score
<b>Strength of insolvency framework index (0-16)</b>		<b>9.0</b>
<b>Commencement of proceedings index (0-3)</b>		<b>2.0</b>
What procedures are available to a DEBTOR when commencing insolvency proceedings?	(c) Debtor may file for reorganization only	0.5
Does the insolvency framework allow a CREDITOR to file for insolvency of the debtor?	(b) Yes, but a creditor may file for liquidation only	0.5
What basis for commencement of the insolvency proceedings is allowed under the insolvency framework?	(a) Debtor is generally unable to pay its debts as they mature	1.0
<b>Management of debtor's assets index (0-6)</b>		<b>5.5</b>
Does the insolvency framework allow the continuation of contracts supplying essential goods and services to the debtor?	Yes	1.0
Does the insolvency framework allow the rejection by the debtor of overly burdensome contracts?	Yes	1.0
Does the insolvency framework allow avoidance of preferential transactions?	Yes	1.0
Does the insolvency framework allow avoidance of undervalued transactions?	Yes	1.0
Does the insolvency framework provide for the possibility of the debtor obtaining credit after commencement of insolvency proceedings?	Yes	1.0
Does the insolvency framework assign priority to post-commencement credit?	(a) Yes over all pre-commencement creditors, secured or unsecured	0.5
<b>Reorganization proceedings index (0-3)</b>		<b>0.5</b>
Which creditors vote on the proposed reorganization plan?	(a) All creditors	0.5
Does the insolvency framework require that dissenting creditors in reorganization receive at least as much as what they would obtain in a liquidation?	No	0.0
Are the creditors divided into classes for the purposes of voting on the reorganization plan, does each class vote separately and are creditors in the same class treated equally?	No	0.0
<b>Creditor participation index (0-4)</b>		<b>1.0</b>
Does the insolvency framework require approval by the creditors for selection or appointment of the insolvency representative?	No	0.0
Does the insolvency framework require approval by the creditors for sale of substantial assets of the debtor?	No	0.0
Does the insolvency framework provide that a creditor has the right to request information from the insolvency representative?	No	0.0
Does the insolvency framework provide that a creditor has the right to object to decisions accepting or rejecting creditors' claims?	Yes	1.0

**Note:** Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

## Labor Market Regulation

*Doing Business* presents detailed data for the labor market regulation indicators on the *Doing Business* website (<http://www.doingbusiness.org>). The report does not present rankings of economies on these indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business.

The most recent round of data collection was completed in May 2018. [See the methodology for more information.](#)

### What the indicators measure

#### Hiring

(i) whether fixed-term contracts are prohibited for permanent tasks; (ii) maximum cumulative duration of fixed-term contracts; (iii) length of the probationary period; (iv) minimum wage.

#### Working hours

(i) maximum number of working days allowed per week; (ii) premiums for work: at night, on a weekly rest day and overtime; (iii) whether there are restrictions on work at night, work on a weekly rest day and for overtime work; (iv) whether nonpregnant and nonnursing women can work same night hours as men; (v) length of paid annual leave.

#### Redundancy rules

(i) whether redundancy can be basis for terminating workers; (ii) whether employer needs to notify and/or get approval from third party to terminate 1 redundant worker and a group of 9 redundant workers; (iii) whether law requires employer to reassign or retrain a worker before making worker redundant; (iv) whether priority rules apply for redundancies and reemployment.

#### Redundancy cost

(i) notice period for redundancy dismissal; (ii) severance payments due when terminating a redundant worker.

#### Job quality

(i) whether law mandates equal remuneration for work of equal value and nondiscrimination based on gender in hiring; (ii) whether law mandates paid or unpaid maternity leave; (iii) length of paid maternity leave; (iv) whether employees on maternity leave receive 100% of wages; (v) availability of five fully paid days of sick leave a year; (vi) eligibility requirements for unemployment protection.

### Case study assumptions

To make the data comparable across economies, several assumptions about the worker and the business are used.

#### The worker:

- Is a cashier in a supermarket or grocery store, age 19, with one year of work experience.
- Is a full-time employee.
- Is not a member of the labor union, unless membership is mandatory.

#### The business:

- Is a limited liability company (or the equivalent in the economy).
- Operates a supermarket or grocery store in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Has 60 employees.
- Is subject to collective bargaining agreements if such agreements cover more than 50% of the food retail sector and they apply even to firms that are not party to them.
- Abides by every law and regulation but does not grant workers more benefits than those mandated by law, regulation or (if applicable) collective bargaining agreements.

## Labor Market Regulation - Burkina Faso

## Details - Labor Market Regulation in Burkina Faso

	Answer
<b>Hiring</b>	
Fixed-term contracts prohibited for permanent tasks?	No
Maximum length of a single fixed-term contract (months)	24.0
Maximum length of fixed-term contracts, including renewals (months)	No Limit
Minimum wage applicable to the worker assumed in the case study (US\$/month)	85.9
Ratio of minimum wage to value added per worker	0.9
Maximum length of probationary period (months)	2.0
<b>Working hours</b>	
Standard workday	8.0
Maximum number of working days per week	6.0
Premium for night work (% of hourly pay)	0.0
Premium for work on weekly rest day (% of hourly pay)	0.0
Premium for overtime work (% of hourly pay)	15.0
Restrictions on night work?	No
Whether nonpregnant and nonnursing women can work the same night hours as men	Yes
Restrictions on weekly holiday?	Yes
Restrictions on overtime work?	No
Paid annual leave for a worker with 1 year of tenure (working days)	22.0
Paid annual leave for a worker with 5 years of tenure (working days)	22.0
Paid annual leave for a worker with 10 years of tenure (working days)	22.0
Paid annual leave (average for workers with 1, 5 and 10 years of tenure, in working days)	22.0
<b>Redundancy rules</b>	
Dismissal due to redundancy allowed by law?	Yes
Third-party notification if one worker is dismissed?	No
Third-party approval if one worker is dismissed?	No
Third-party notification if nine workers are dismissed?	Yes
Third-party approval if nine workers are dismissed?	No
Retraining or reassignment obligation before redundancy?	No
Priority rules for redundancies?	Yes
Priority rules for reemployment?	Yes
<b>Redundancy cost</b>	
Notice period for redundancy dismissal for a worker with 1 year of tenure	4.3
Notice period for redundancy dismissal for a worker with 5 years of tenure	4.3
Notice period for redundancy dismissal for a worker with 10 years of tenure	4.3
Notice period for redundancy dismissal (average for workers with 1, 5 and 10 years of tenure)	4.3
Severance pay for redundancy dismissal for a worker with 1 year of tenure	1.1

Severance pay for redundancy dismissal for a worker with 5 years of tenure	5.4
Severance pay for redundancy dismissal for a worker with 10 years of tenure	11.9
Severance pay for redundancy dismissal (average for workers with 1, 5 and 10 years of tenure)	6.1
<b>Job quality</b>	
Equal remuneration for work of equal value?	No
Gender nondiscrimination in hiring?	No
Paid or unpaid maternity leave mandated by law?	Yes
Minimum length of maternity leave (calendar days)?	98.0
Receive 100% of wages on maternity leave?	Yes
Five fully paid days of sick leave a year?	Yes
Unemployment protection after one year of employment?	No
Minimum contribution period for unemployment protection (months)?	n.a.

## Business Reforms in Burkina Faso

In the past year, *Doing Business* observed a peaking of reform activity worldwide. From June 2, 2017, to May 1, 2018, 128 economies implemented a record 314 regulatory reforms improving the business climate. Reforms inspired by *Doing Business* have been implemented by economies in all regions. The following are reforms implemented since *Doing Business* 2008.

✓ = *Doing Business* reform making it easier to do business. ✗ = Change making it more difficult to do business.

---

DB2019

✓ **Enforcing Contracts:** Burkina Faso made enforcing contracts easier by adopting a law that regulates all aspects of mediation as an alternative dispute resolution mechanism.

---

DB2018

✓ **Getting Credit:** Burkina Faso improved access to credit information by launching a new credit bureau.

---

DB2017

✓ **Starting a Business:** Burkina Faso made starting a business less costly by reducing the paid-in minimum capital required to register a company.

✓ **Getting Credit:** Burkina Faso improved access to credit information by introducing regulations that govern the licensing and functioning of credit bureaus in West African Economic and Monetary Union (UEMOA) member states.

✓ **Resolving Insolvency:** Burkina Faso made resolving insolvency easier by introducing a new conciliation procedure for companies in financial difficulties and a simplified preventive settlement procedure for small companies.

---

DB2016

✓ **Starting a Business:** Burkina Faso made starting a business easier by reducing the minimum capital requirement.

---

DB2015

✓ **Protecting Minority Investors:** Burkina Faso strengthened minority investor protections by introducing greater requirements for disclosure of related-party transactions to the board of directors and by making it possible for shareholders to inspect the documents pertaining to related-party transactions and to appoint auditors to conduct an inspection of such transactions.

---

DB2014

✓ **Paying Taxes:** Burkina Faso made paying taxes easier for companies by abolishing the separate capital gains tax on real estate properties.

---

DB2012

✓ **Starting a Business:** Burkina Faso made starting a business easier by replacing the requirement for a copy of the founders' criminal records with one for a sworn declaration at the time of the company's registration.

✓ **Dealing with Construction Permits:** Burkina Faso made dealing with construction permits less costly by reducing the fees to obtain a fire safety study.

✓ **Getting Credit:** Access to credit in Burkina Faso was improved through amendments to the OHADA Uniform Act on Secured Transactions that broaden the range of assets that can be used as collateral (including future assets), extend the security interest to the proceeds of the original asset and introduce the possibility of out-of-court enforcement.

---

DB2011

✓ **Dealing with Construction Permits:** Burkina Faso made dealing with construction permits easier by cutting the cost of the soil survey in half and the time to process a building permit application by a third.

✓ **Paying Taxes:** Burkina Faso reduced the statutory tax rate and the number of taxes for business and introduced simpler, uniform compliance procedures.

✓ **Trading across Borders:** Burkina Faso reduced documentation requirements for importers and exporters, making it easier to trade.

✓ **Enforcing Contracts:** Burkina Faso made enforcing contracts easier by setting up a specialized commercial court and abolishing the fee to register judicial decisions.

## DB2010

- ✓ **Starting a Business:** Burkina Faso made starting a business easier by allowing online publication of the articles of incorporation directly on the website of the one-stop shop, by reducing registration fees and by streamlining tax registration.
- ✓ **Dealing with Construction Permits:** Burkina Faso made dealing with construction permits easier by establishing a one-stop shop for processing building permits in Ouagadougou.
- ✓ **Registering Property:** Burkina Faso streamlined property registration by allowing the payment of transfer taxes at the land registry, reorganizing the land registry, setting statutory time limits for procedures and simplifying property valuation by government officials through the use of tables of values based on materials used.
- ✓ **Trading across Borders:** Burkina Faso reduced the time needed for trading across borders by creating a one-stop shop for commercial trade documents.
- ✓ **Enforcing Contracts:** Burkina Faso improved its contract enforcement system by reducing court fees and introducing alternative dispute mechanisms.

## DB2009

- ✓ **Dealing with Construction Permits:** Burkina Faso made dealing with construction permits easier by eliminating random inspections during construction and by introducing a new one-stop shop for building permits, which reduced approval fees and combined several separate payments into one.
- ✓ **Registering Property:** Burkina Faso made transferring property easier and less costly by eliminating the requirement to obtain authorization from the municipality, merging the payment of 2 taxes at the land registry and reducing the transfer tax rate.
- ✓ **Paying Taxes:** Burkina Faso made paying taxes less costly for companies by reducing the corporate income tax rate as well as the dividend and property transfer tax rates.

**Labor Market Regulation:** Burkina Faso allowed fixed-term contracts to be concluded for permanent tasks, removed the 48-month limit on their duration. It also eliminated restrictions on “weekly holiday” work and the employer’s obligation to notify a third party before dismissing one redundant worker.

## DB2008

- ✓ **Starting a Business:** Burkina Faso reduced the time required to start a business through a ministerial decree simplifying notification and documentation requirements for company registration.
- ✓ **Registering Property:** Burkina Faso made registering property less costly by reducing the registration tax.
- ✓ **Enforcing Contracts:** Burkina Faso made enforcing contracts easier by increasing the efficiency of operations in the commercial court.

*Doing Business 2019* is the 16th in a series of annual reports investigating the regulations that enhance business activity and those that constrain it. The report provides quantitative indicators covering 11 areas of the business environment in 190 economies. The goal of the *Doing Business* series is to provide objective data for use by governments in designing sound business regulatory policies and to encourage research on the important dimensions of the regulatory environment for firms.
